Disputes among members of business families have been the stuff of numerous novels and films, and also providing headlines in daily newspapers. Various families have ruined themselves fighting until the closing stages, the last scene of which is usually performed in the court. So the need of the hour is make wills at a young age. There is nothing you can guarantee yourself a ripe old age. Accidents happen and illness, terrorist attack and earthquake have been known to turn fatal. Age is not key factor. If you have spouse and children, you must write WILL. Leave them Will and save them from harassment of Municipal authorities/City Development Boards. Also the creation of family trust makes sense and it is a novel way of tax planning as also planning for dependents marriage, education expenses, etc. No disputes are in the interest of the members of the family and therefore the family arrangement should be for the benefit of the family in general.

Keeping in view the above objective, we are pleased to inform that PHD Chamber is organizing a Seminar on “WILLS, FAMILY SETTLEMENTS AND TRUSTS” on Tuesday, 30th August 2011 at 4.30 pm at Hotel Gomti, Lucknow.
