

About the Conference

South India stands as one of the most economically dynamic regions of India, contributing nearly 30–31% of the national GDP. The region's growth is driven by diverse and sector-specific industrial strengths across states such as:

Telangana – Pharmaceuticals, bulk drugs, life sciences, and IT; Hyderabad produces 30% of India's bulk drugs and hosts major global IT campuses

As industries evolve in complexity, governance, compliance, and strategic advisory functions are becoming critical for sustainable growth. Traditionally, Company Secretaries (CS) have been seen as compliance professionals. However, the changing business landscape demands a transition towards “**Sector-Specific Governance Architects**”

This conference aims to redefine the role of CS professionals as “**Industry specialists**”, “**Strategic advisors**” and “**Ecosystem enablers**”

This Conference helps in:

- ❖ Identify sector-specific regulatory and governance requirements
- ❖ Understand ecosystem gaps across key industries
- ❖ Explore compliance and advisory opportunities for CS professionals
- ❖ Develop state-wise and sector-wise governance frameworks
- ❖ Enable specialization among CS professionals
- ❖ Facilitate industry–professional collaboration
- ❖ Contribute to policy and regulatory discussions.

India has emerged as the global nucleus for Global Capability Centres (GCCs), transforming from cost-arbitrage hubs to strategic engines of innovation, digital transformation, and enterprise leadership. Over 1,700+ GCCs operating across India, employing 1.6+ million professionals, Contributing significantly to global R&D, analytics, and digital transformation.

The role of the Company Secretary is undergoing a powerful transformation. Today, a CS is not just ensuring regulatory compliance but actively shaping governance frameworks, risk culture, and strategic alignment of GCCs with global objectives

This technical session covers why Company Secretaries are Critical to GCC Success

- ❖ GCCs operate in a complex, globalized regulatory environment
- ❖ Governance failures can lead to significant reputational and financial risks
- ❖ A CS ensures trust, credibility, and long-term sustainability
- ❖ They transform GCCs into globally compliant, resilient, and future-ready organizations

Pharma & Healthcare Sector:

Hyderabad has emerged as one of India's leading hubs for pharmaceuticals, biotechnology, and healthcare innovation, earning global recognition as the "Vaccine Capital of the World." The region hosts a vibrant ecosystem of pharma giants, biotech startups, research institutions, and healthcare providers.

As the sector scales rapidly—driven by innovation, exports, and global collaborations—the importance of robust compliance frameworks, regulatory advisory, and governance excellence becomes critical to ensure quality, safety, and global credibility.
