General Instructions for Good and Successful Webinar:

1. A laptop with a quad core processor running latest version of BlueJeans App.

2. Good Network Connection: Minimum 512kbps Up/Down recommended, higher is better.

3. Audio/Microphone: Since you will be relying on your laptop for sound, we recommend a headset (w/ mic) to keep external noises to a minimum. This will help you hear better and it will help limit the auxiliary noises

heard by remote participants.

4. Participants must mute audio and video except Faculty/Moderator.

5. Recording of the session is not allowed.

6. The members may note that credential provided by them for the webinar should be the same as provided by them in the membership data of the ICSI and in the format of attached FAQ so as to avail PCH/CPE entitlement. Members entering incorrect credentials would not be entitled to PCH/CPE.

Since the logins are limited to 70 only, Members are requested to join webinar on time. Prior registration is not required. In case of any difficulty please mail to vadodara@icsi.edu
